

Maestran™

PROTECTION LIKE NO OTHER

Authorized Dealer:

Maestran™ THE ELEGANCE OF STRENGTH

Maestran™ is an exclusive hurricane and security protection shield engineered and manufactured by MaestroShield®. It provides safety from hurricanes and Ultra-Violet solar radiation as well as providing the best protection against intrusion. Delivered in manual or roll down forms, Maestran™ is an elegant, smooth, semi-transparent and esthetically pleasing. Its impenetrable strength is derived from an innovative design using Kevlar™ cabled with six strands of 304 or 316 grade stainless steel.

Maestran™ allows outward visibility while protecting your home or business. Installations are available as a fixed installation on a frame or a permanent installation directly mounted to the structure motorized with a remote control or manually operated.

Applications are recommended for :

Doors	Windows
Porches	Balconies
Lanais	Porticos
Store fronts	

Maestran™ has been tested and approved as a hurricane protection product from:

- Miami Dade County - NOA# 07-0404.02
- Florida Building Code - FL8622
- Texas Department of Insurance - SHU158

Maestran™ distinctive features include:

- Protects opening up to 13' x 30'
- Ultra light weight - only .35 lbs per sqft.
- Reduces wind, rain, heat and UV exposure by 72%
- Maintains external visibility
- Comes with a full 7 year warranty
- All aluminum housing, hoods, side rails, side caps and bottom bars are AAMA 2605 Powder Coated and include a 10 year warranty and are available in white, beige, ivory and bronze

MaestroShield® motors and electronics are innovation at its best. Designed in-house by Swedish and American engineers, these industry leading components are the perfect marriage of power, precision and integration. With multiple configurations available, the agility of our motors and electronics puts them in a class of their own. Designed and tested with quality in mind MaestroShield® motors and electronics will greatly enhance your shutter, door, screen and shading applications. These are only some of the reasons why MaestroShield® is superior to the competition in tubular motors and electronics.
