

MANUAL ACCESS ON DEMAND

Clutch Release Motor 50

ENHANCING YOUR SECURITY ROLL DOWN SYSTEMS

Providing options while maintaining security is the key to the success of the MaestroShield® Clutch Release Motor. This revolutionary motor easily transforms to manual operation when the clutch release is engaged allowing for quick assistance during emergency egress. You can choose from a variety of sizes, control options and configurations to suit most any application.

- Panic release and recoil with clutch release
- Ideal for emergency egress for fire safety compliance
- Manual uncoiling and motorized recoiling of horizontally mounted rolling units
- Easily programmed with a full suite of electronics
- Supports up to 279 lbs.
- 2 Year 100% replacement warranty 
- 24 hour technical support
- Produced under ISO 9001 quality guidelines
- UL Recognized
- CE Listed
- CSA Certified
- IP 44 Rated

MaestroShield® motors are innovation at its best. Designed in-house by Swedish and American engineers, these industry leading components are the perfect marriage of power, precision and integration. With multiple configurations available, the agility of our motors puts them in a class of their own. Designed and tested with quality in mind MaestroShield® motors will greatly enhance your shutter, door, screen and shading applications. These are only some of the reasons why MaestroShield® is superior to the competition in tubular motors.
