## MAESTROSHIELD SILENT SERIES TUBULAR MOTORS

MaestroShield® motors are innovation at its best. Designed in-house by Swedish and American engineers, these industry leading components are the perfect marriage of power, precision and price. At 38db, the Silent Series motors are the quietest available. With multiple configurations available, the agility of our motors puts them in a class of their own. Designed and tested with quality in mind MaestroShield® motors will greatly enhance all your shading applications. These are only some of the reasons why MaestroShield® is superior to the competition in tubular motors
